2 weights/styles

(Display & Display italic)

Supported scripts

Latin, Greek, Cyrillic

Formats

TTF, WOFF2, WOFF

(TrueType OpenType
format only)

Constantia Display was designed by John Hudson, assisted by Paul Hanslow, as a companion to the Constantia text family, initially targeting titles in Microsoft PowerPoint slide templates but suitable to a wide range of larger size uses. Constantia Display is not simply a size-specific adaptation of the Constantia design, but is a distinct 'cut' featuring different forms in some letters, notably the crossbar of the E and related shapes. Overall, the Constantia Display cut is lighter than the text font, with narrower proportions, tighter spacing, and smaller x-height.

Constantia Display works as a harmonic companion to Constantia, of course, but also as a stand-alone titling and headline type to be used contrastively with, for example, a sans serif text face.

Microsoft font family sold under [M-Product License](#).

TrueType OpenType format only.

Constantia Display & Display Italic 24/30pt

Migratory flights are frequently accomplished in close flock formation, as with *shorebirds*, *blackbirds*, *waxwings*, and especially some of the *buntings*, *longspurs*, *juncos*, and *tree sparrows*. Other species maintain a very loose flock formation.

Constantia Display & Display Italic 26/32pt

Pescărașii sunt o familie, Alcedinidae, de păsări de talie mică până la mijlocie, viu colorate, din ordinul Coraciiformes. Majoritatea speciilor pot fi găsite în regiunile tropicale din *Africa*, *Asia* și *Oceania*, dar pot fi văzute și în *Europa*.

Constantia Display & Display Italic 28/32pt

A União Internacional para a Conservação da Natureza e dos Recursos Naturais lista 24 espécies de guarda-rios como “vulneráveis” ou “em perigo”.

Constantia Display & Display Italic 24/30pt

Μελέτες έχουν δείξει μειωμένο κίνδυνο θήρευσης των νεοσσών σε μεγαλύτερα υψόμετρα, στοιχείο που μπορεί να εξηγήσει την εποχική, αναπαραγωγική υψοομετρική μετανάστευση ορισμένων στρουθιόμορφων πτηνών.

Constantia Display & Display Italic 26/32pt

Τα μεταναστευτικά ωδικά πτηνά χρησιμοποιούν επίσης το μαγνητικό πεδίο της Γης, τα αστέρια, τον ήλιο, και το πολωμένο φως για τη «χάραξη» των μεταναστευτικών ταξιδιών τους.

Constantia Display & Display Italic 28/32pt

Η πτήση των πτηνών πραγματοποιείται σε διάφορα υψόμετρα κατά τη διάρκεια της μετανάστευσης. Μια αποστολή στο Έβερεστ βρήκε σκελετούς από σουβλόπαπιες και λιμόζες στα 5.000 μ.

Constantia Display & Display Italic 24/30pt

Например, обитающие в горах и на болотах птицы, такие как стенолаз (*Tichodroma muraria*) и оляпка (*Cinclus cinclus*) соответственно, могут во время своих миграций передвигаться только на разные высоты, избегая холодной горной зимы.

Constantia Display & Display Italic 26/32pt

Большинство крупных птиц совершают миграции стаями, часто формируя V-образный «клин» из 12—20 птиц.

Такое расположение помогает птицам уменьшить энергетические затраты на перелёт.

Constantia Display & Display Italic 28/32pt

Оседлыми называют птиц, которые придерживаются определённой небольшой территории и за пределы её не перемещаются.

English 24/28pt

CORMORANTS AND SHAGS are medium-to-large birds, with body weight in the range of 0.35–5 kilograms (0.77–11.02 lb) and wing span of 60–100 metres (24–39 in). The majority of species have dark feathers. The bill is long, thin and hooked. Their feet have webbing between all four toes. All species are fish-eaters, catching the prey by diving from the surface. They are excellent divers, and under water they propel themselves with their feet with help

Français (French) 24/28pt

LES PHALACROCORACIDAE sont une famille d'oiseaux aquatiques constituée de 3 genres et de 36 espèces vivantes. Cette famille est celle des oiseaux mer connus sous le nom de cormorans. Il s'agit d'un groupe très homogène, tant pour ce qui concerne la morphologie que le régime alimentaire piscivore ou les mœurs générales. Pour cette raison, les 36 espèces de cormorans sont le plus souvent réunies dans un genre unique, le genre *Phalacrocorax* ép

About Tiro Typeworks Ltd

Tiro Typeworks was founded in 1994, by John Hudson and Ross Mills. The company has built an international reputation creating custom fonts for multilingual publishing and computing. Tiro Typework's clients include major software developers, including Adobe, Apple, and Microsoft; major commercial publishers such as the Anandabazar Patrika group; and academic organisations and scholarly publishers such as the Society for Biblical Literature, the STI Pub consortium, Brill, and Harvard University Press.

About the Designer

John Hudson designs typefaces and makes fonts. He is the co-founder of Tiro Typeworks Ltd. and has been responsible for or has collaborated on type designs for Arabic, Bengali, Cyrillic, Devanagari, Ethiopic, Greek, Gurmukhi, Hebrew, Latin, Odia, Sinhala, Telugu, Thai, and other scripts.
